

Introductory School
“Definability, Decidability, and Computability”

September 15 - 19, 2025

organized by
Valentina Harizanov, Philipp Hieronymi, Jennifer Park, Florian Pop, Alexandra
Shlapentokh

Time measurement: CEST

• **Monday, September 15**

08:30 - 09:00	<i>Arrival and Registration</i>
09:00 - 09:05	<i>Welcome by Magdalena Balcerak Jackson</i>
09:05 - 10:05	Franziska Jahnke (1)
10:05 - 10:25	<i>Coffee break</i>
10:25 - 11:25	Bjorn Poonen <i>Lecture 1: Diophantine sets and Hilbert's tenth problem</i>
11:25 - 11:40	<i>Break</i>
11:40 - 12:40	Sylvy Anscombe <i>Lecture 1: The classical Δ_1-Kochen/Ershov principles</i>
12:40 - 14:30	<i>Lunch break</i>
14:30 - 15:30	Theodore Slaman (1)
15:30 - 16:00	<i>Coffee break</i>
16:00 - 17:00	Franziska Jahnke (2)
Afterwards	<i>Get-Together and if weather permits Barbecue</i>

• **Tuesday, September 16**

09:00 - 10:00	Sylvy Anscombe <i>Lecture 2: Positive residue characteristic: finite ramification and Kaplansky's hypothesis</i>
10:00 - 10:20	<i>Coffee break</i>
10:20 - 11:20	Theodore Slaman (2)
11:20 - 11:40	<i>Group photo and break</i>

11:40 - 12:40	Bjorn Poonen <i>Lecture 2: The first order theory of finitely generated rings and fields</i>
12:40 - 14:30	<i>Lunch break</i>
14:30 - 15:30	Franziska Jahnke (3)
15:30 - 16:00	<i>Coffee break</i>
16:00 - 17:00	Sylvy Anscombe <i>Lecture 3: Tame fields and existential theories in equal characteristic</i>
17:15 -	Career Panel <i>Moderator: Sylvy Anscombe</i>

• **Wednesday, September 17**

09:30 - 10:30	Bjorn Poonen <i>Lecture 3: Hilbert's tenth problem for rings of integers I</i>
10:30 - 11:00	<i>Coffee break</i>
11:00 - 12:00	Theodore Slaman (3)
12:00 - 14:00	<i>Lunch</i>
14:00 -	<i>Excursions</i>

• **Thursday, September 18**

09:00 - 10:00	Franziska Jahnke (4)
10:00 - 10:20	<i>Coffee break</i>
10:20 - 11:20	Sylvy Anscombe <i>Lecture 4: Analytic, difference, and differential structures</i>
11:20 - 11:40	<i>Break</i>
11:40 - 12:40	Theodore Slaman (4)
12:40 - 14:30	<i>Lunch break</i>
14:30 - 15:30	Bjorn Poonen <i>Lecture 4: Hilbert's tenth problem for rings of integers II</i>
15:30 - 16:00	<i>Coffee break</i>
16:00 - 17:00	Franziska Jahnke (5)
TBA	<i>Dinner (Lamme Goedzak)</i> <i>Choose the menu one day in advance, and pay at the restaurant</i>

• **Friday, September 19**

09:00 - 10:00	Theodore Slaman (5)
10:00 - 10:20	<i>Coffee break</i>

10:20 - 11:20	Bjorn Poonen <i>Lecture 5: Failed approaches to Hilbert's tenth problem for $\mathbb{Q}$</i>
11:20 - 11:40	<i>Break</i>
11:40 - 12:40	Sylvy Anscombe <i>Lecture 5: Towards the Taming Theorem of Jahnke and Kartas which applies the AKE-theory of tame valued fields to perfectoid fields</i>
12:40 - 14:30	<i>Lunch break</i>
14:30 -	<i>Discussions</i>
